"The rhythmic, onomatopoeic text dances across exuberant watercolors with lots of movement. This celebration of a child's agency in choosing a means of artistic expression strikes just the right note." --Kirkus "A delightful offering for reading aloud, especially during music-themed storytimes." --

School Library Journal From New York Times bestselling author Chris Barton and new illustrator Louis Thomas comes a fun, rhythmic picture book about finding the music that is perfect for you! A boy who loves to make noise gets to pick only one instrument (at his parents urging) in a music store, but there is too much to choose from! There's triangles and sousaphones! There's guitars and harpsichords! Bagpipes and cellos and trombones! How can he find the one that is just right for him out of all those options?

Eight Days in March: Gibbs Smith

This first book of its kind tells the behind-the-scenes story of the incredibly illegal Cannonball rally. This best seller is now available in paperback! In the early 1970s, Brock Yates, senior editor of Car and Driver Magazine, created the now infamous Cannonball Sea-to-Shining-Sea Memorial Trophy

Dash; a flat out, no-holds-barred race from New York City to Redondo Beach, California. Setting out to prove that well trained drivers could safely navigate the American highways at speeds in excess of the posted limits, Mr. Yates created a spectacle reminiscent of the glory days of the barnstorming pilots. Filled with fascinating unpublished stories, nostalgic and modern-day photographs, inside information and hilarious stories from this outrageous and incredibly immoral rally. Brock is one of the best-known, most respected automotive journalists in the world today.

What do Julius Erving, Larry Brown, Moses Malone, Bob Costas, the Indiana Pacers, the San Antonio Spurs and the Slam Dunk Contest have in common? They all got their professional starts in the American Basketball Association. What do Julius Erving, Larry Brown, Moses Malone, Bob Costas, the Indiana Pacers, the San Antonio Spurs and the Slam Dunk Contest have in common? They all got their professional starts in the American Basketball Association. The NBA may have won the financial battle, but the ABA won the artistic war. With its stress on wide-open individual play, the adoption of the 3-point shot and pressing defense, and the encouragement of flashy moves and flying dunks, today's NBA is still—decades later—just the ABA without the red, white and blue ball. Loose Balls is, after all these years, the definitive and most widely respected history of the ABA. It's a wild ride through some of the wackiest, funniest, strangest times ever to hit pro sports—told entirely through the (often incredible) words of those who played, wrote and connived their way through the league's nine seasons.

THE collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an "Islam industry" run primarily by fly-by journalists, think tank pundits, and cut-and-paste "experts."

Showcasing exclusive interviews and more than 300 behind-the-scenes photos, Camaro 2016 tells the inside story of this iconic muscle car. It's the pony-car showdown: the Ford Mustang versus the Chevy Camaro. Both manufacturers share the same goal—create the ultimate American muscle car. General Motors was caught off guard when Ford unveiled the first pony car in 1964. GM took the fight to Dearborn in 1967 with the introduction of its Chevrolet Camaro, and for the next 35 years, Mustang and Camaro waged an intense battle for gearheads' hearts and wallets. Chevrolet re-introduced the Camaro for the 2010 model year, and its appealing retro-influenced body style allowed it to frequently outsell its Ford competitor. For Camaro fans, there is no greater source of speculation and excitement than the pending introduction of a new-generation Camaro. In anticipation of the Camaro's 50th anniversary, GM has prepared a significantly revised, sixth-generation car to take on Ford's latest 2015 Mustang. Featuring revised bodywork, a new chassis platform, expanded and new driveline options, and a reworked interior, the new Camaro raises the bar and again puts Mustang on the defensive. Camaro 2016 tells the complete story of the new sixth-generation Camaro, available just in time to celebrate the model's 50th anniversary. Featuring exclusive interviews with engineers, designers, and other Camaro team members, as well as more than 300 behind-the-scenes photographs, this book offers readers an intimate Camaro experience—putting them behind the wheel of the latest edition of one of America's greatest muscle cars. The gears are always shifting, and Camaro 2016 tracks the entire journey.

In recent years, revelations of grand corruption and the plunder of state assets have led to greater scrutiny of financial relationships with politically exposed persons (PEPs) senior government officials and their family members and close associates. Notwithstanding the efforts by many financial institutions and regulatory authorities to prevent corrupt PEPs from entering and using the financial system to launder the proceeds of corruption, there has been an overall failure in the effective implementation of international standards on PEPs. Implementation of an effective PEP regime is a critical component in the prevention and detection of transfers of proceeds of crime and, therefore, ultimately in the process of recovering them. 'Politically Exposed Persons: Preventive Measures for the Banking Sector' is designed to help banks and regulatory authorities address the risks posed by PEPs and prevent corrupt PEPs from using domestic and international financial systems to launder the proceeds of corruption. The book provides recommendations and good practices aimed at improving compliance with international standards and increasing supervisory effectiveness. It is an important tool for individuals, governments, financial and private sector companies, and international organizations involved in developing and implementing standards aimed at fighting corruption and money laundering, and trying to recover stolen assets and the proceeds of corruption.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."
