LOGAN HESTER

American History: Connecting with the Past Vintage
Shocking and controversial when it was first published in 1939, Steinbeck's Pulitzer prize-winning epic remains his undisputed masterpiece. It tells of the Joad family who travel West in search of the promised land, and find only broken dreams.
The Glorious Revolution in America Applewood Books
Brinkley's American History, a comprehensive U.S. History program, transforms the learning experience through proven, adaptive technology helping students better grasp the issues of the past while providing instructors greater insight on student performance. Known for its clear, single voice and balanced scholarship, Brinkley asks students to think historically about the many forces shaping and re-shaping our dynamic history. Connect is the only integrated learning system that empowers

students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

The Impending Crisis of the South: how to Meet it GENERAL PRESS

New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality,

natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it."

America's History Perfection Learning

Virtually self-taught, he excelled as an athlete, a man of letters, a printer, a scientist, a wit, an inventor, an editor, and a writer, and he was probably the most successful diplomat in American history. Written initially to guide his son, Franklin's autobiography is a lively, spellbinding account of his unique and eventful life. Stylistically his best work, it has become a classic in world literature, one to inspire and delight readers everywhere. This charming self-portrait has been translated into nearly every language. Publisher : General Press

History of Plymouth Plantation, 1620-1647 Penguin Classics

Alan Brinkley's American History sets the standard for balance of perspective and the exploration of ongoing historical questions. In this AP edition, we are pleased to announce a number of firsts for American History: a new primary-source feature that makes connections between the present and the past; a new pedagogy program that helps students to comprehend and think critically about content; and a groundbreaking set of digital tools, powered by Connect; that create a unique learning environment. The result is greater course success. Connect to the stories, connect to the experience, connect to success in history. - Back cover.

1492-Present W. W. Norton & Company

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

These Truths: A History of the United States The American

Pageant

Describes how recent archaeological research has transformed long-held myths about the Americas, revealing far older and more advanced cultures with a greater population than were previously thought to have existed.

The American Yawp University of Pennsylvania Press

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

A Short History of the United States W. W. Norton & Company

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Visible Saints: The History of a Puritan Idea Harper Collins
CliffsNotes AP U.S. History Cram Plan gives you a study plan leading up to your AP exam no matter if you have two months, one month, or even one week left to review before the exam!

This new edition of CliffsNotes AP U.S. History Cram Plan calendarizes a study plan for the 489,000 AP U.S. History test-takers depending on how much time they have left before they take the May exam. Features of this plan-to-ace-the-exam product include: • 2-months study calendar and 1-month study calendar • Diagnostic exam that helps test-takers pinpoint strengths and weaknesses • Subject reviews that include test tips and chapter-end quizzes • Full-length model practice exam with answers and explanations

American History Oxford University Press

From the time they stepped ashore at Plymouth and Salem, the New England Puritans have commanded attention, partly because of the boldness of their undertaking, partly because of its material success, but also because of the tension, excitement, and hope aroused by a large-scale effort to deal rationally with society. Their attempt to direct human relations into a consistent pattern derived from Biblical precepts has been the focus of my own interest in the Puritans. In previous works I have discussed their concepts of family relationships and of civil government. Currently I am engaged in a study of the way their ideas affected economic problems. In the ensuing pages I have tried to examine the origins and history of an idea that they considered more important for society than domestic, political, or economic ones, the idea of membership in the church.

End of History and the Last Man Courier Corporation

In *A Short History of the United States*, National Book Award winner Robert V. Remini offers a much-needed, concise history of our country. This accessible and lively volume contains the essential facts about the discovery, settlement, growth, and development of the American nation and its institutions, including the arrival and migration of Native Americans, the founding of a republic under the Constitution, the emergence of the United States as a world power, the outbreak of terrorism here and abroad, the Obama presidency, and everything in between. Simon and Schuster

“My favorite historical novel . . . a superb re-creation of the Battle of Gettysburg, but its real importance is its insight into what the war was about, and what it meant.”—James M. McPherson In the four most bloody and courageous days of our nation's history, two armies fought for two conflicting dreams. One dreamed of freedom, the other of a way of life. Far more than rifles and bullets were carried into battle. There were memories. There were promises. There was love. And far more than men fell on those Pennsylvania fields. Bright futures, untested innocence, and pristine beauty were also the casualties of war. Michael Shaara's Pulitzer Prize-winning masterpiece is unique, sweeping, unforgettable—the dramatic story of the battleground for America's destiny.

AP U.S. History Crash Course Achieve a Higher AP Score in Less Time REA's Crash Course is perfect for the time-crunched student, last-minute studier, or anyone who wants a refresher on

the subject! Are you crunched for time? Have you started studying for your AP U.S. History exam yet? How will you memorize all that history before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's AP U.S. History Crash Course is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know The Crash Course is based on an in-depth analysis of the AP U.S. History course description outline and actual AP test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Broken down into major topics and themes, REA gives you two ways to study the material — chronologically or thematically. Expert Test-taking Strategies Written by an AP teacher who has studied the AP U.S. History Exam for 20 years, the author shares his detailed, question-level strategies and explains the best way to answer the multiple-choice and essay questions. By following his expert advice, you can boost your overall point score! Key Terms You Must Know Mastering AP vocabulary terms is an easy way to boost your score. Our AP expert gives you the key terms all AP U.S. History students must know before test day. Take REA's FREE Practice Exam After studying the material in the Crash Course, go online and test what you've learned. Our full-length practice exam features timed testing, detailed explanations of answers, and automatic scoring. The exam is balanced to include every topic and type of question found on the actual AP exam, so you know you're studying the smart way! When it's crucial crunch time and your AP U.S. History exam is just around the corner, you need REA's AP U.S. History Crash Course!

The Day of Doom Vintage

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth

through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Or, A Poetical Description of the Great and Last Judgment : with Other Poems Hill and Wang

The thirteen mainland colonies of early America were arguably never more British than on the eve of their War of Independence from Britain. Though home to settlers of diverse national and cultural backgrounds, colonial America gradually became more like Britain in its political and judicial systems, material culture, economies, religious systems, and engagements with the empire. At the same time and by the same process, these politically distinct and geographically distant colonies forged a shared cultural identity—one that would bind them together as a nation during the Revolution. Anglicizing America revisits the theory of Anglicization, considering its application to the history of the Atlantic world, from Britain to the Caribbean to the western wildernesses, at key moments before, during, and after the American Revolution. Ten essays by senior historians trace the complex processes by which global forces, local economies, and individual motives interacted to reinforce a more centralized and unified social movement. They examine the ways English ideas about labor influenced plantation slavery, how Great Britain's imperial aspirations shaped American militarization, the influence of religious tolerance on political unity, and how Americans' relationship to Great Britain after the war impacted the early republic's naval and taxation policies. As a whole, Anglicizing

America offers a compelling framework for explaining the complex processes at work in the western hemisphere during the age of revolutions. Contributors: Denver Brunsman, William Howard Carter, Ignacio Gallup-Diaz, Anthony M. Joseph, Simon P. Newman, Geoffrey Plank, Nancy L. Rhoden, Andrew Shankman, David J. Silverman, Jeremy A. Stern.

The Revolutionary Generation Harper Collins

Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success

of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.

Documents on the Colonial Crisis of 1689 Houghton Mifflin College Division

A revised edition of the classic study of American politics from the Founding Fathers to FDR.
