more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want

you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret. **Hypnosis and Hypnotherapy with Children, Fourth Edition** Mosby Incorporated Now in its sixth edition, *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades.

Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The book is grounded in the view that children can engage in valid forms of historical inquiry—asking questions, collecting and analyzing evidence, examining the varied perspectives and experiences of people in the past, and creating

evidence-based historical accounts and interpretations. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, and discussion. The authors explain how these classrooms reflect contemporary principles of teaching and learning, and thus, the descriptions not only provide specific examples of successful

activities but also place them in a context that allows teachers to adapt and apply them in a wide range of settings. Doing History emphasizes diversity in two ways: Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning, and they also see examples of how teachers can engage students with diverse experiences and perspectives in the past, including those that led to conflict and oppression.

The book also discusses principles for working with English learners and newcomers, and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning. Updates to this edition include updated historical and instructional examples to ensure currency, new suggestions for children's literature to support good teaching, expanded attention to teaching about oppressed groups in history, and greater

attention to when historical perspective taking is and is not appropriate.

"This book offers a unique interpretation of

traditional workshop instruction by showing teachers how to integrate their separate reading and writing workshops into one 'literacy workshop' (periodically and as dictated by student needs) that takes advantage of the inherent reciprocity between reading and writing. Through narrative discussion, student samples, photographs, instructional resources, online content, suggested lessons and various mentor texts, the book explains the structure of

the literacy workshop, tells readers how to get started with it, and shows them how to decide when it's best to merge the two workshops into one. The book is divided into two parts. Part I (Chapters 1-4) lays the foundation and gives the nuts and bolts of literacy workshop. Part II (Chapters 5-9) includes engagement/strategy/topic focused demonstration lessons - which includes a primary and an intermediate level example lesson for each Big Idea"--

The Everything Kids' Basketball Book Merrill Publishing Company Fantasy literature, often derided as superficial and escapist, is one of the most popular and enduring genres of fiction worldwide. It is also—perhaps surprisingly—thought-

provoking, structurally complex, and relevant to contemporary society, as the essays in this volume attest. The scholars, teachers, and authors represented here offer their perspectives on this engaging genre. Within these pages, a reader will find a wealth of ideas to help teachers use these texts in the classroom, challenging students to read fantasy with a critical eye. They employ interdisciplinary, philosophical, and religious lenses, as well as Marxist and feminist

critical theory, to help students unlock texts. The books discussed include epic fantasy by such authors as Tolkien and Le Guin, children's fantasy by Beatrix Potter and Saint-Exupéry, modern fantasy by Rowling and Martin, and even fairy tales and comic books. The contributors offer provocations, questioning the texts and pushing the boundaries of meaning within the fantasy genre. And in doing so, they challenge readers themselves to ponder these tales more deeply.

But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories. Furthermore, as with all the books in this series, this volume is informed by the tenets of critical pedagogy, and is focused on re-envisioning fantasy literature through the lens of social justice and empowerment. Prepare to be challenged and inspired as you read these explorations of a much-loved genre.

Retelling 30 myths and legends of the Eastern Cherokee, this book presents the stories with important details providing a culturally authentic and historically accurate context. Background information is given within each story so the reader may avoid reliance on glossaries, endnotes, or other explanatory aids. The reader may thus experience the stories more as their original audiences would have.

This approach to adapting traditional literature derives from ideas found in reader-response and translation theory and from research in cognitive psychology and sociolinguistics.

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the

world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.
