Despite the empowering pride culture that has evolved globally in the past half-century, the LGBTQAI+ community continues to face widespread discrimination. They are often subjected to cruelty and discrimination and are the bearers of a heavy psychological burden and frustration that stems from not coming out and expressing their concerns freely. Today, the invisibility of this community and its concerns have become enormous challenges for the world as their interests often go unrepresented and unaddressed by governments due to various barriers. Global LGBTQ+ Concerns in a Contemporary World: Politics, Prejudice, and Community considers the harsh realities of the LGBTQAI+ community and draws attention to key issues such as violation of their rights and disparities in access to basic amenities such as healthcare, employment, and security. Covering key topics such as inclusion, mental health, queer communities, and human rights, this reference work is ideal for activists, advocates, politicians, sociologists, gender studies specialists, policymakers, government officials, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

In the United States, some populations suffer from far greater disparities in health than others.

Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen

Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen.
