Using the credit card and

identity of a handA-cuffs
salesman, professional
failure Tyndale Corbett
arrives in Miami for a law-
enforcement conference
to discover the joys of
luxury hotels and above
all the delight of being
someone else, someone
successful. Feeling his
previous lack of success
might be due to
insufficient ambition,
Tyndale decides on a new
money-making scheme.
He will up the ante
substantially,

exponentially, and pretend to be someone really important and successful: God. His mission to convince the citizenry of Miami that he is, despite appearances, the Supreme Being results in him taking over the Church of the Heavily Armed Christ. His duties there involve him in forming a private army, hiring call girls, trafficking coke, issuing death threats, beating off church-jackers and sorting out (as almightily as possible) various problems his parishioners

are having with pets. All the while he is working on his grand project, the clincher miracle, dying and coming back to life...

How to Fix Everything For Dummies Human Kinetics Publishers

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a

variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts. *Snake Coloring Book For Adults* Independently Published

“Every pastor should read this. . . . Every believer who has ever despaired of church, been tempted to quit, or struggled with guilt over leaving should, too” (Rod Dreher).

Americans still believe in God, but they are leaving the church in record numbers. Why are the faithful fleeing? Julia Duin, a veteran journalist and a

Christian, has collected the research and added insights from interviews with disillusioned followers, as well as from her own story. In this engrossing account of churches in decline, Duin visits numerous churches and explores a number of factors underlying the social shift away from church: irrelevant teaching, the neglect of singles, the marginalization of women, and a lack of authentic spiritual power. She also journeys into house churches and emergent

congregations. Duin’s careful analysis is sure to help church leaders and churchgoers examine how they might better serve their communities and create inviting spiritual homes for people of all kinds. “Engaging . . . as religion editor for the Washington Times, [Duin] is in her element marshaling statistics, interviewing authors and clergy, and commenting on the trend of faithful evangelicals who increasingly vote with their feet by leaving their churches.” —Publishers

How does a Christian lead? By following today's secular business models, or by simply studying the life of Christ and pursuing a servant-based style? In this insightful, practical book, George Barna has pulled together some of today's top Christian leaders to talk about the subject of Christian leadership. Articles include: The Tasks of a Leader by Ken Gangel, The Character of a Leader

by Jack Hayford, Prayer in Leading People by Peter Wagner, and much more. See what today's leaders have to say about leadership, and learn what it takes to serve the Church as a Christ-centered change agent.

Between Worlds 6

Wentworth Press
This book describes the horrors of our family which started during World War II in Germany, and continued for years thereafter because our father abandoned us. After twenty court processes, involving two dozen lawyers and judges, our family lost everything. My little brother, Siggie, and I suffered severe illnesses, starvation and homelessness. When we were about five and seven, our mother forced us to scavenge pig's innards from a manure

pile. With the ever-present wire whip that she usually kept pinned to her skirt, she enticed us to eat them. A judge evicted us from our home. On Christmas Eve Day. For one year we squatted in a stranger's attic without water, sewer, heat, power or hope. When we were fourteen and sixteen, our relatives invited us to America. We now thought that our lives would improve: Cowboys and Indians! But when we later arrived on their dairy farms, they enslaved us. I was not allowed to bathe

but once a year. At the age of twenty-one, I still lived without water, heat, power, or outhouse. After we finally escaped, Siggie and I worked our way through college, became American citizens and world travelers.

 A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc. While many different subdivisions have been

proposed, anthropologists classify games under three major headings, and have drawn some conclusions as to the social bases that each sort of game requires. They divide games broadly into, games of pure skill, such as hopscotch and target

shooting; games of pure strategy, such as checkers, go, or tic-tac-toe; and games of chance, such as craps and snakes and ladders. A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc.
