St. Michaels, Maryland, is a town of shipbuilders whose reputation for crafting powerful schooners carries far beyond the shores of young America. And once the War of 1812 starts, that's not necessarily a good thing. For the British have targeted the town as part of their campaign to defeat America in its fight to maintain its independence. And now, in August of 1813 the British fleet is sailing up the Chesapeake River to St. Michaels. The town's militia is assembled but no one expects they can win the fight against the powerful British cannons. Citizens are being evacuated and the town is in turmoil. All young Henry Middle wants to do is find his father amid the chaos of the coming attack. The lanterns he carries will be of use to the militia. As Henry works to conquer his rising fear, he realizes he may hold the answer to outsmarting the British in his very hands. Winston Churchill, the prime minister of England during World War II, was one of the greatest wartime leaders of the modern era. While he is often likened to the English bulldog due to his tenacious personality and even his physical resemblance to the breed, Mr. Churchill was actually a devoted poodle owner and held quite an affinity for his miniature poodle, Rufus, who withstood the trials of World War II by his owner's side. Readers follow Rufus and Winston's friendship through major events in World War II—from the bombings of London and the invasion of Normandy to post-war reconstruction. Secondary text includes quotes from Churchill himself—taken from his rousing speeches to the people of England and to the world. Backmatter includes a timeline of World War II, an author's note about Churchill's pets, as well as a short biography, quote sources, and a list of recommended resources for further study. In her debut picture book, Kathryn Selbert has created a unique look at a significant historical figure and period in world history.

A leading reporter offers a tour of military working dogs' extraordinary training, heroic accomplishments, and the lasting impacts they have on those who work with them. People all over the world have been riveted by the story of Cairo, the Belgian Malinois who was a part of the Navy SEAL team that led the raid on Osama bin Laden's compound. A dog's natural intelligence, physical abilities, and pure loyalty contribute more to our military efforts than ever before. You don't have to be a dog lover to be fascinated by the idea that a dog—the cousin of that furry guy begging for scraps under your table—could be one of the heroes who helped execute the most vital and high-tech military mission of the new millennium. Now Maria Goodavage, editor and featured writer for one of the world's most widely read dog blogs, tells heartwarming stories of modern soldier dogs and the amazing bonds that develop between them and their handlers. Beyond tales of training, operations,

retirement, and adoption into the families of fallen soldiers, Goodavage talks to leading dog-cognition experts about why dogs like nothing more than to be on a mission with a handler they trust, no matter how deadly the IEDs they are sniffing, nor how far they must parachute or rappel from aircraft into enemy territory. "Military working dogs live for love and praise from their handlers," says Ron Aiello, president of the United States War Dogs Association and a former marine scout dog handler. "The work is all a big game, and then they get that pet, that praise. They would do anything for their handler." This is an unprecedented window into the world of these adventurous, loving warriors.

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
